

Airglide 360

Turntable
User Manual

General operation of the turntable

1. Move hoist onto the turntable
2. Stop once the green lights glow
3. Wait whilst the lights show for 2 seconds
4. The turntable will automatically turn 90 degrees
5. Move off the turntable to desired location

VERY IMPORTANT!

- Never attempt to move off the turntable whilst it is moving
- Never attempt to manually move the turntable

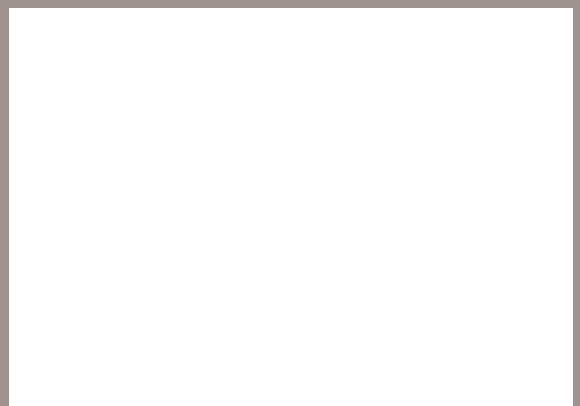

IMPORTANT!

- The turntable, hoist unit, and track system should be checked and/or serviced every 6 months. Please contact your Innova™ Dealer for more information.
