

Opera Bed & Mattress Guide

Make Life Easier & Regain Your Comfort

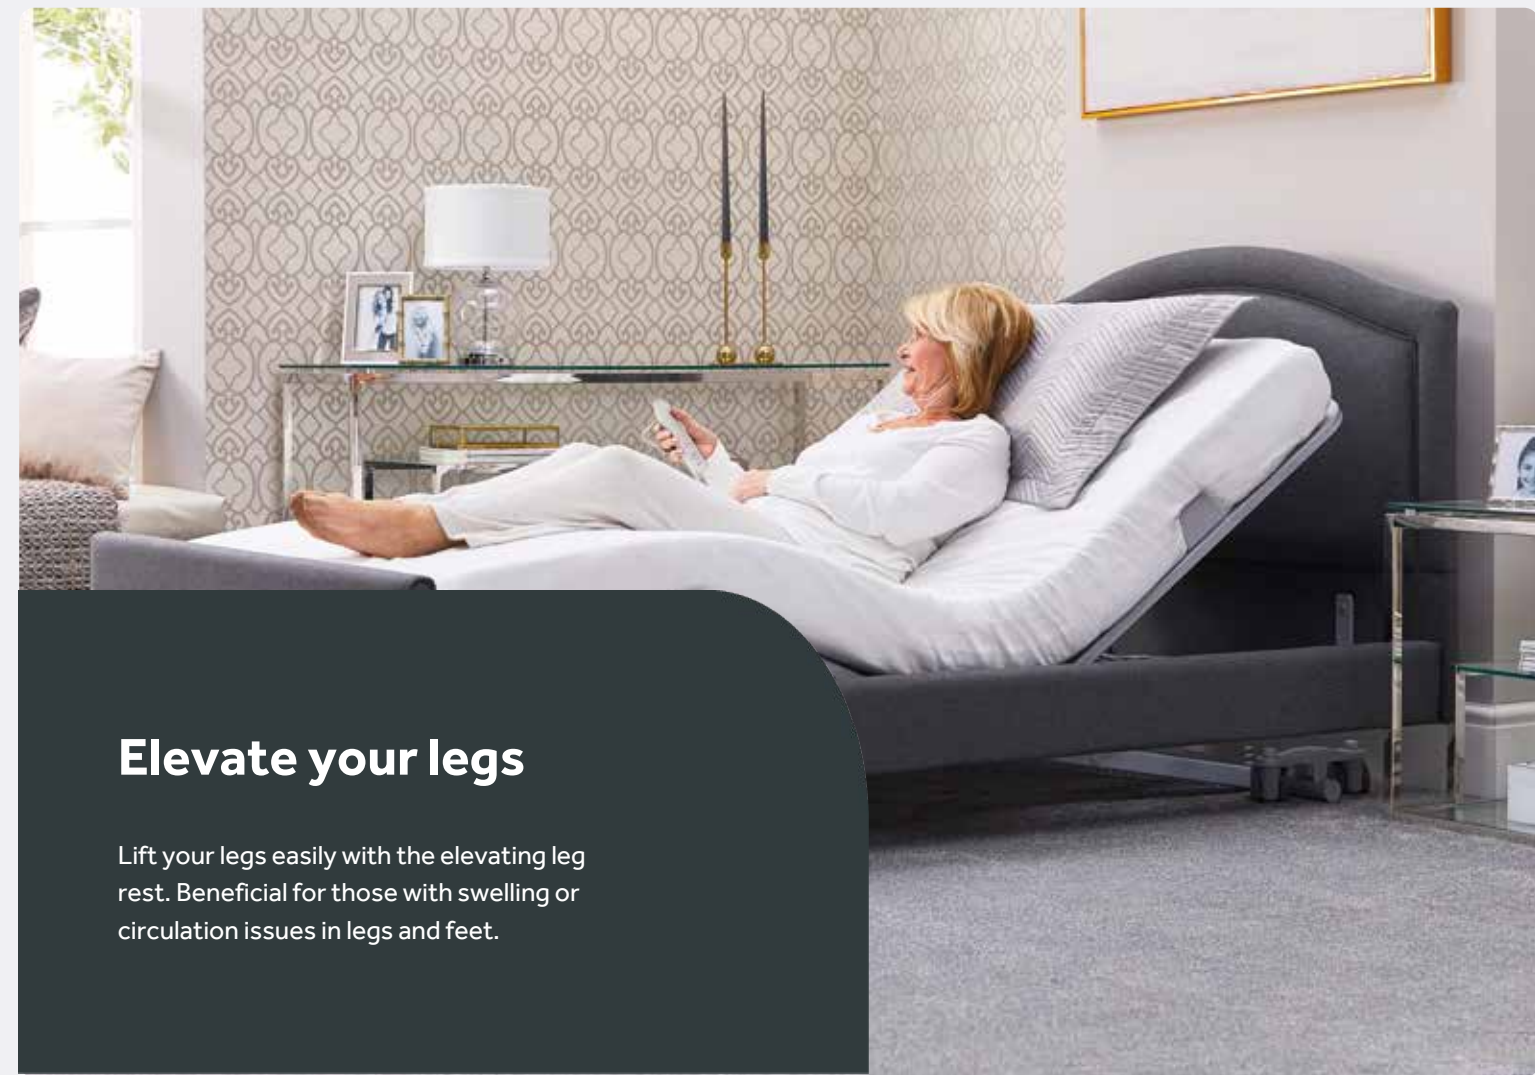

Sit up in comfort

Raise the backrest to sit up comfortably with proper postural support – no need to prop with pillows!

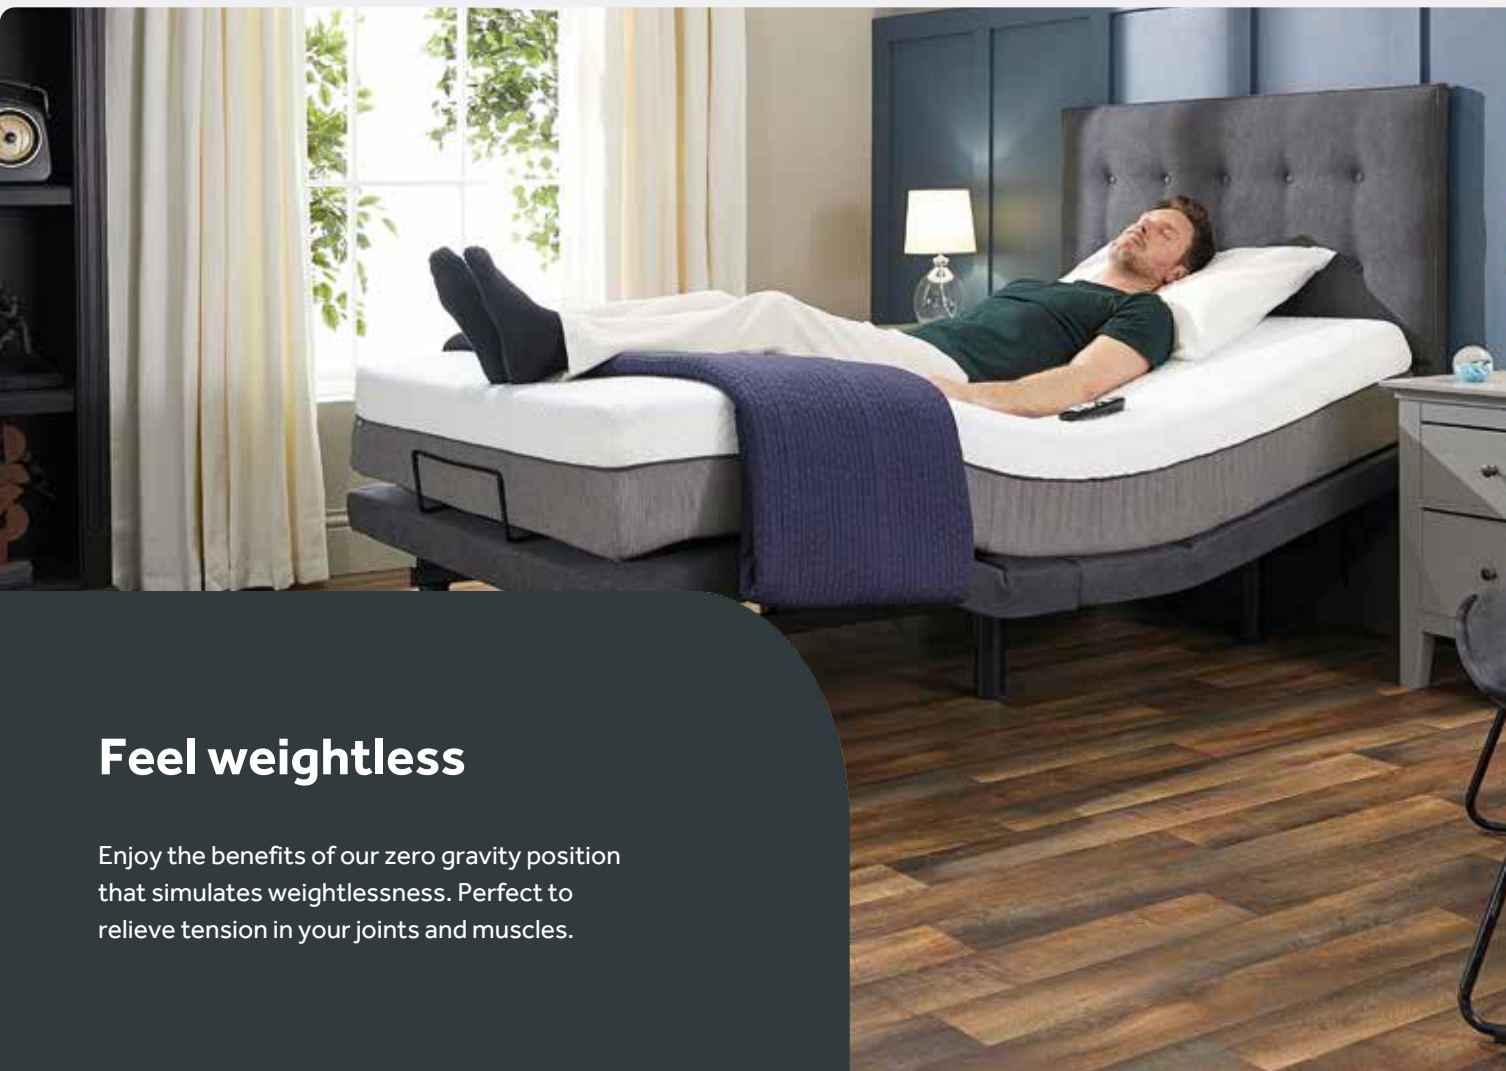

Elevate your legs

Lift your legs easily with the elevating leg rest. Beneficial for those with swelling or circulation issues in legs and feet.

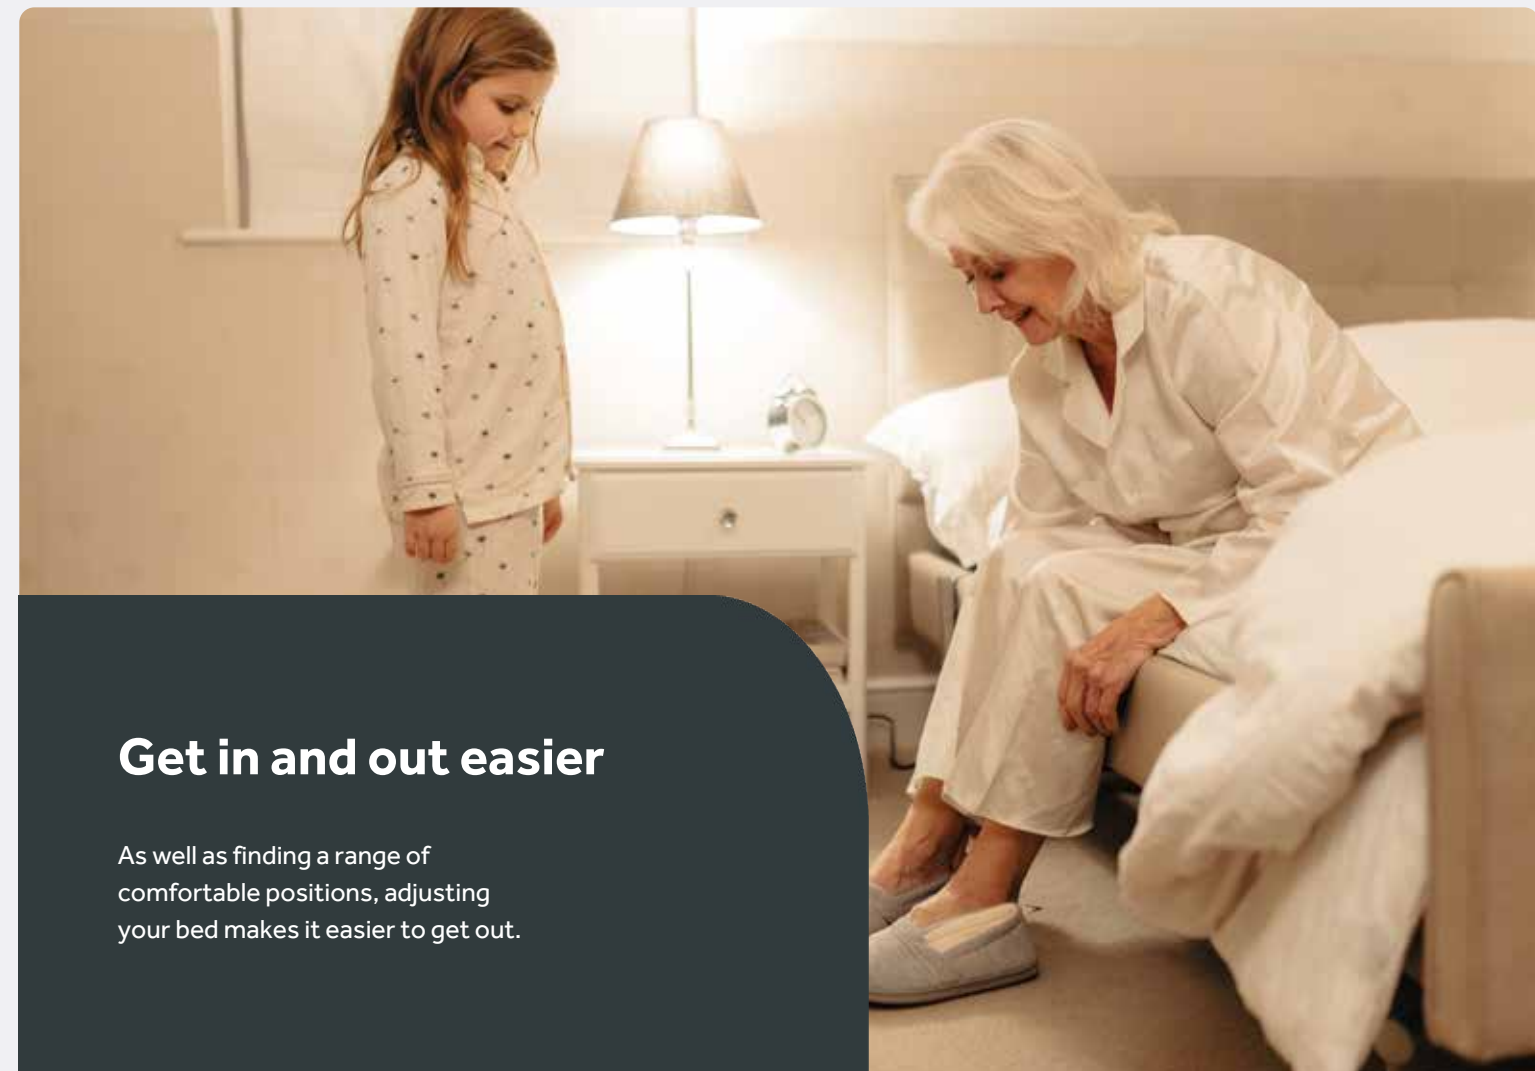

Feel weightless

Enjoy the benefits of our zero gravity position that simulates weightlessness. Perfect to relieve tension in your joints and muscles.

Get in and out easier

As well as finding a range of comfortable positions, adjusting your bed makes it easier to get out.

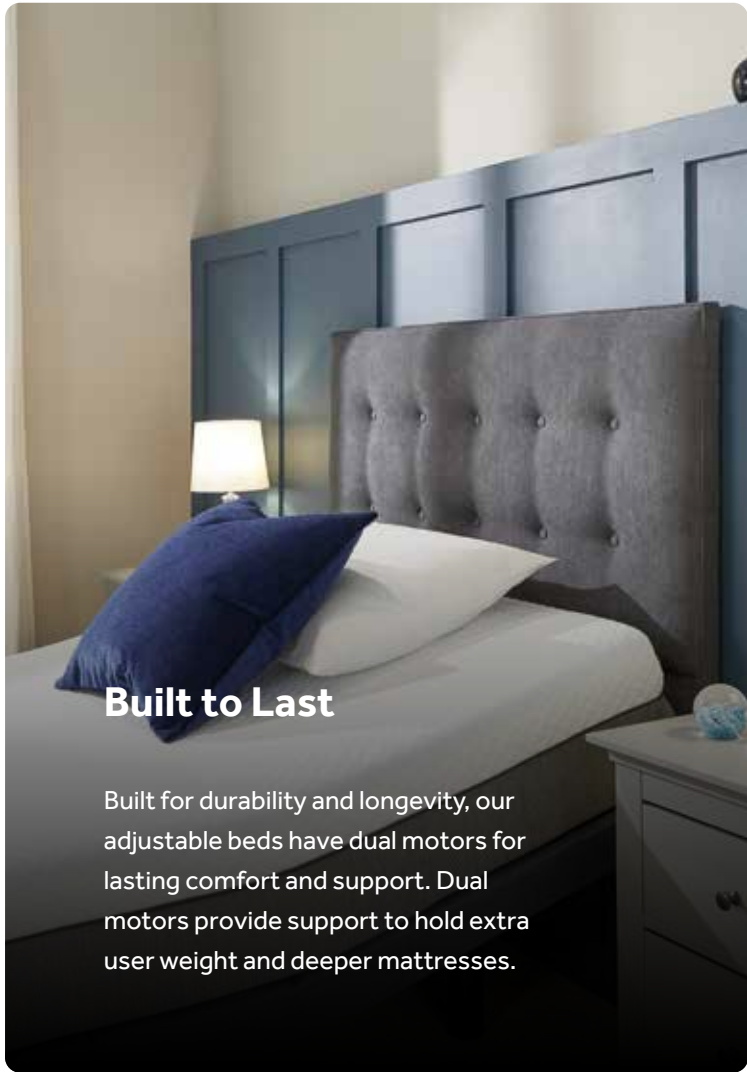

Buy with Confidence

With over 20 years of experience, our adjustable beds capture true British quality, manufacturing, and leading design so your bed and comfort last for years to come.

Handcrafted in Britain

Every bed is designed and made here in the UK by skilled craftspeople. We use the same trusted techniques and attention to detail using finely sourced materials.

Built to Last

Built for durability and longevity, our adjustable beds have dual motors for lasting comfort and support. Dual motors provide support to hold extra user weight and deeper mattresses.

Premium Upholstery

Our upholsterers have uncompromising standards and attention to detail for every bed. Choose to upholster your bed from a variety of fabrics.

Generous Guarantee

Every bed comes with a guarantee as standard for peace of mind. Ask in store about our extra cover options.

High-Low Profiling Beds

Height adjustment

Whole bed goes up and down to ease getting in and out and facilitate on-bed care

Side rails

Provides additional safety for the user and helps prevent bed falls.

Back-rest adjustment

Sit up properly and comfortably, providing postural support that's better for your back.

Leg-rest adjustment

Raise your legs up easily for total comfort and relaxation, beneficial for those with swelling or poor circulation.

Wired handset

Easy-to-use wired handset clips onto the side of the bed when not in use.

Easy-brake castors

Allow for easy and safe manoeuvring, handy for cleaning around the bed and lock into place.

Before you get started

Whether you're new to profiling beds or have an idea of what you're looking for, we want to make your Innova journey simple.

Take a look at our top considerations, answered by our care bed experts.

Is on-bed nursing care required?

Height adjustment is beneficial for carer givers who facilitate on-the-bed nursing. Raising the bed up to waist level takes strain off the body, making it easier and safer.

Struggling to get off a normal divan bed?

Unlike a normal bed, profiling beds have height adjustments where the whole bed can be raised up or lowered down. Lowering the bed down provides easier access.

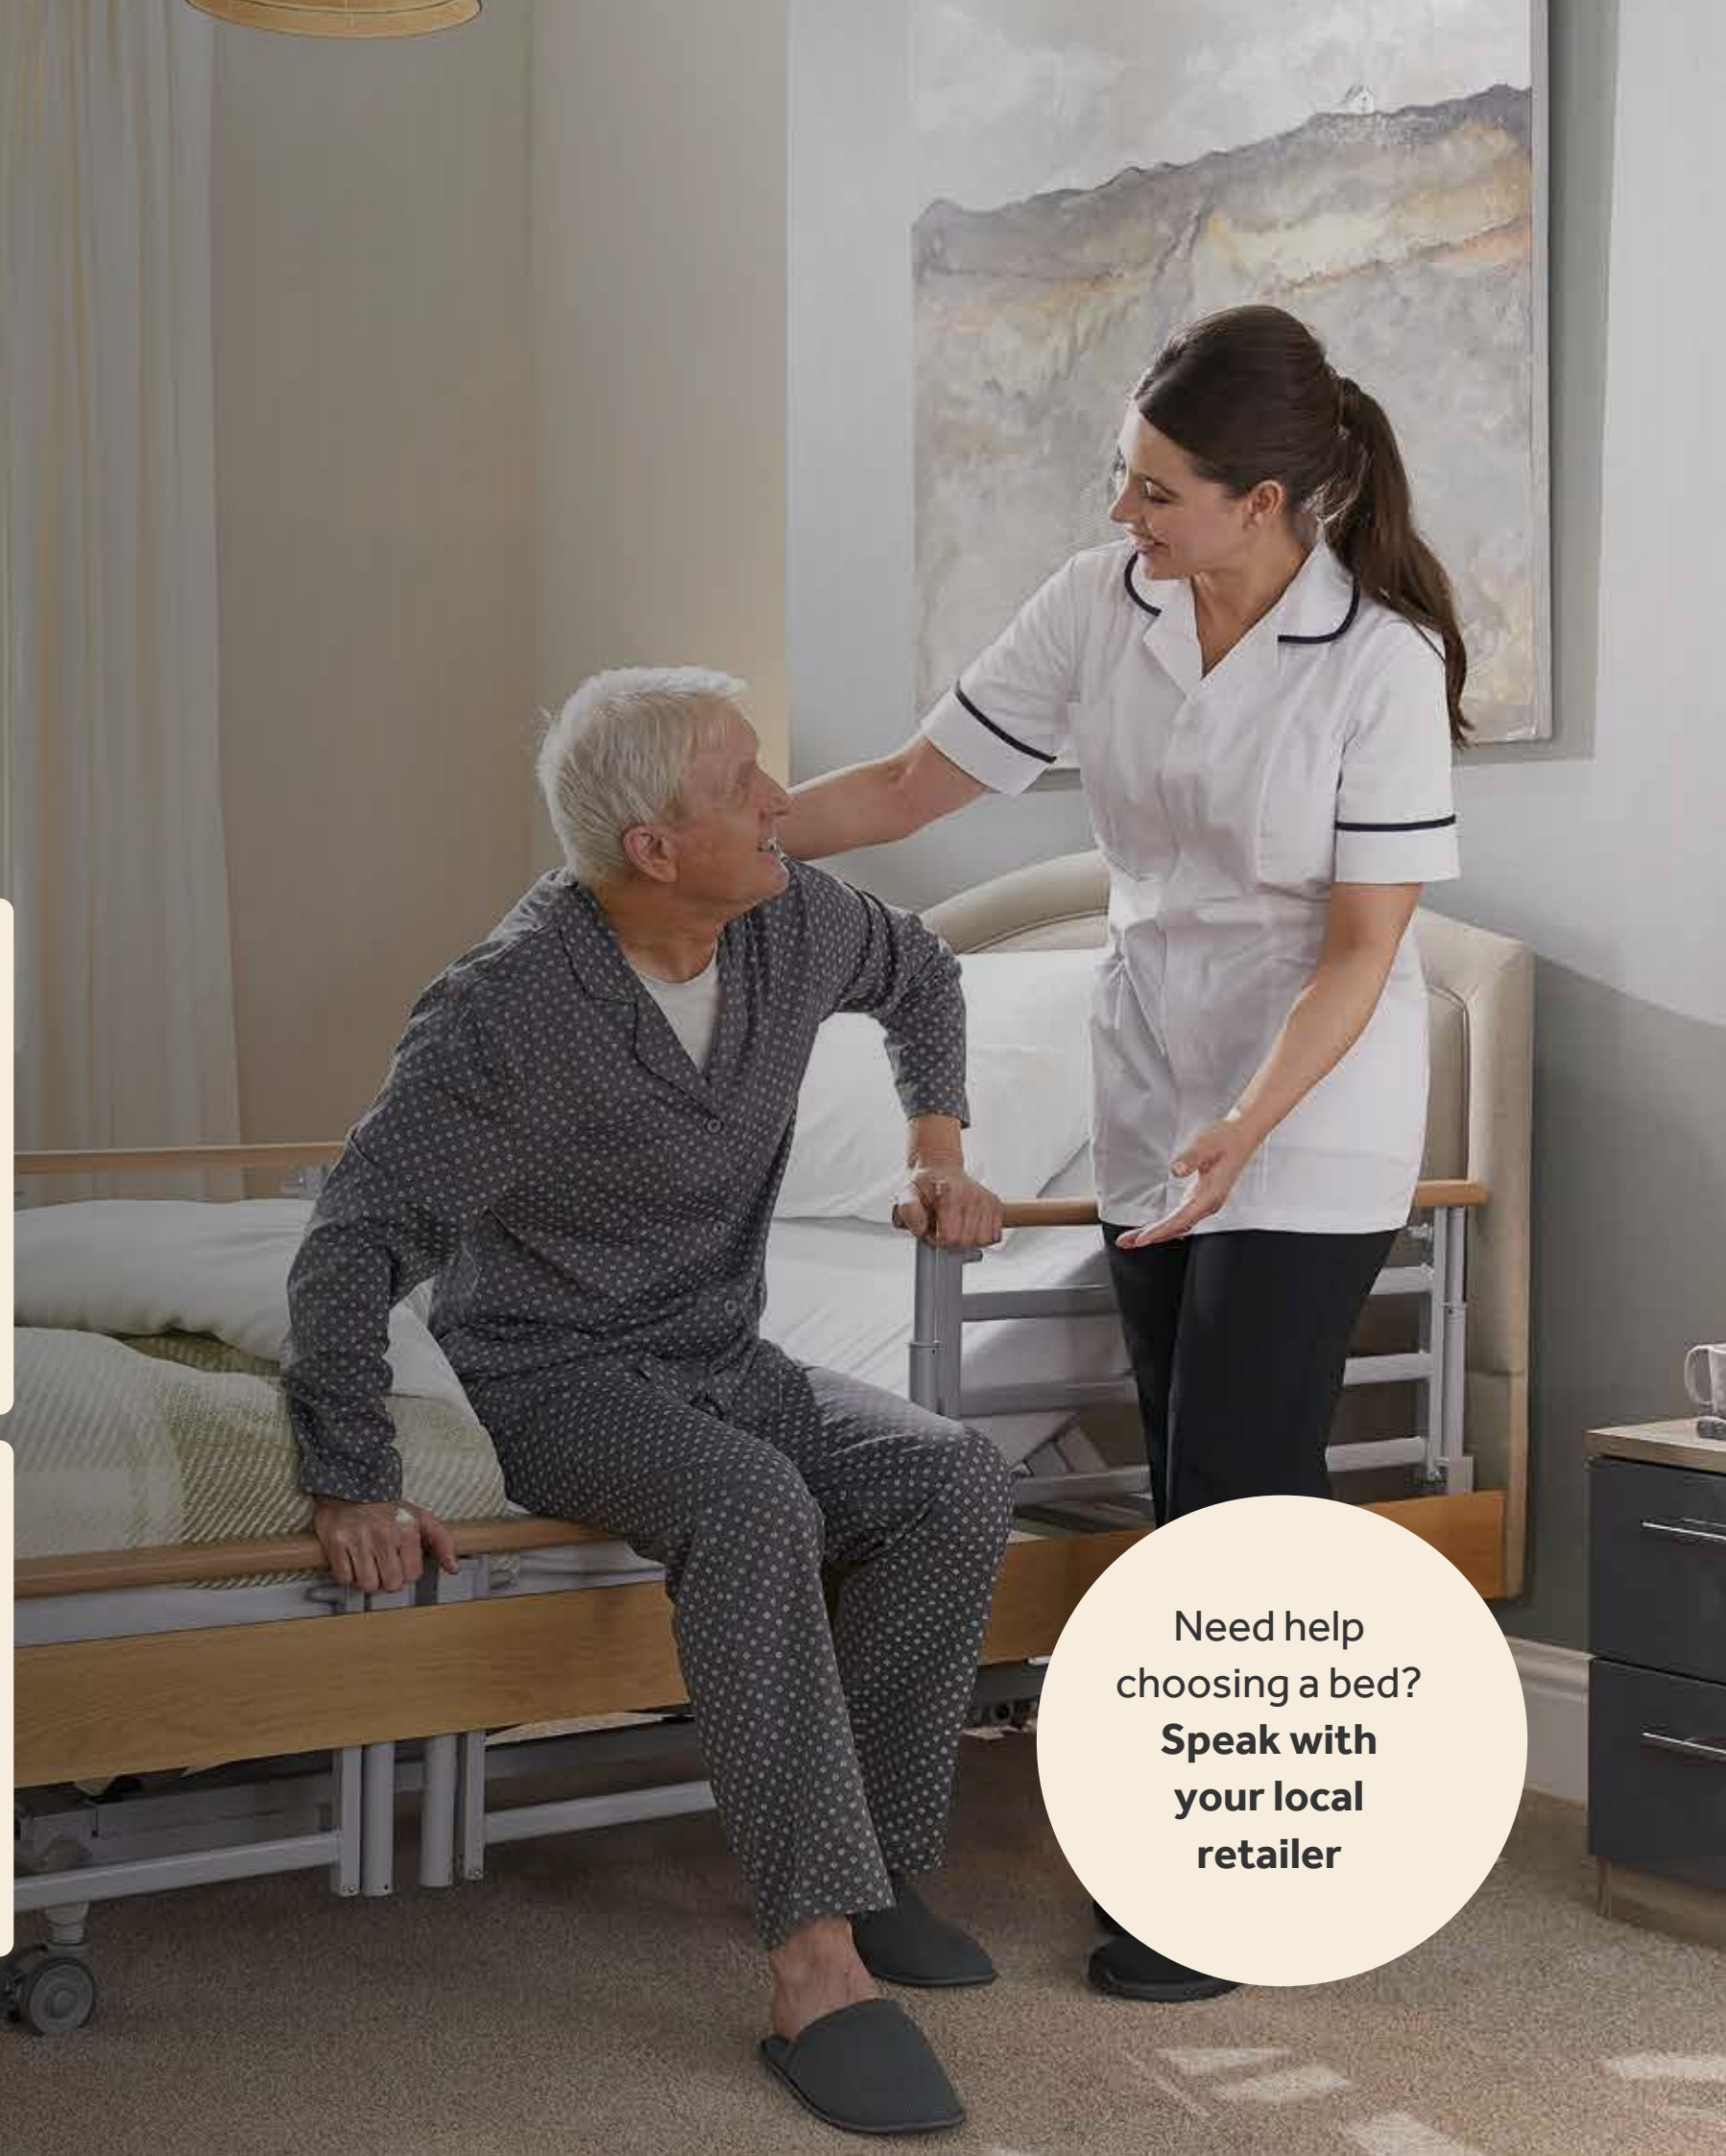

Have you thought about future care?

Medical conditions are often progressive and acquire more advanced care later down the line. Therefore, we advise choosing a bed that caters to existing and future care needs.

Is there a risk of bed falls?

Beds with an ultra-low floor height are designed to protect vulnerable users from bed falls, giving them a safe sleeping height.

Need help choosing a bed?
Speak with your local retailer

Classic

Profiling Bed

Practical and minimal styling, the Classic helps facilitate on-the-bed care by raising up to nursing waist level.

 **Raises from a regular bed height up to a carer's waist level**
40-80cm

 **Optional side rails for extra safety**

 **3 year warranty**
