

CAD Technician - Job Description

About Us:

Innova Care Concepts is a SME business in Wetherby. We are professional, agile, customer-centric, and our goal is to enhance the quality of life for people with disabilities and those working with them by providing innovative healthcare equipment.

Job Summary:

We are seeking a CAD Technician to join our expanding team. As a CAD Technician, working within the wider operations team offering support, you will be responsible for creating technical drawings and plans using computer-aided design (CAD) software. Your attention to detail and proficiency in various CAD software programs will contribute to the successful completion of projects.

Key Responsibilities:

- Create detailed technical drawings and plans from basic fit-out/conversion, to new build projects for healthcare equipment.
- Adhering to time, cost and quality standards to produce solutions which meet the scope of works and requirements of the scheme /project.
- Utilize CAD software such as AutoCAD and Revit
- Review and modify existing drawings as necessary
- Collaborate with engineers and architects to understand project specifications and thoroughly appraise external documentation.
- Attend and contribute in design meetings alongside sales representatives or project managers, communicating with main contractors, architects and engineers to develop project solutions.
- Conduct quality checks on completed designs to identify any errors or discrepancies
- Exercise and oversee correct document control throughout projects, using document portals such as Trimble/4P and adhering to drawing/model numbering protocols. (training can be given)
- Communicate effectively with team members to ensure project deadlines are met
- Working with the existing Senior CAD Designer to build a strong department and ensure compliance with industry standards and regulations
- Visit site when required to overcome unforeseen site issues and develop area specific design solutions.

Key Requirements:

- Competent user of AutoCAD (Essential) and Revit (Preferable)
- Competent user of MS packages e.g. Outlook, Excel, Word, Teams.
- Basic understanding of technical drawing principles and practices
- Ability to interpret architectural and engineering drawings
- Excellent attention to detail and accuracy in work
- Strong problem-solving skills
- Ability to communicate with a range of people at all levels, both verbally and in writing.

A great opportunity for highly motivated individual with a passion for precision, design and the willingness develop and learn through training and mentoring, then we encourage you to apply for the position of CAD Technician.

Full training on products and procedures will be given.

Job Types: Full-time, Permanent

Salary: £30,000.00-£35,000.00 per year

Benefits:

- Company pension
- On-site parking
- 25 Days paid holidays
- Monday to Friday
- Bonus scheme

If you are passionate about making a difference and want to be part of a dynamic team dedicated to improving lives, we would love to hear from you! Please submit your CV and a cover letter detailing why you are the ideal candidate for this role.

To apply, please email your CV and cover letter to cory.keir@innova.uk.com.

Innova Care Concepts is an equal opportunities employer and welcomes applications from all suitably qualified candidates. We thank all applicants for their interest, but only those selected for an interview will be contacted.
